# Adapter WRE

Adapter for installation box ku 68

# Introduction

This mechanical adapter is used for aesthetic attachment of 120/121 product family to the installation box ku 68. Products " 120/121 ", for example WRE 120 BK are thinner than the width of the standard installation box ku 68. If mounting on this installation box, it is advisable to use this adapter.

## a. Application

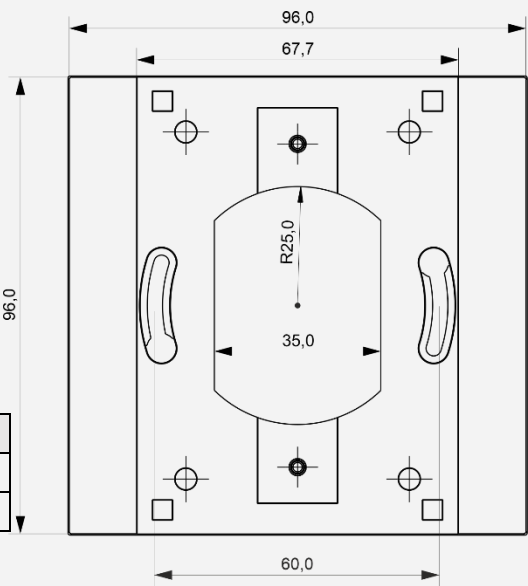

- Installation of products "120 / 121" on top of the installation box ku 68
